Highlights

ProMix blending technology

The Philips handblender ProMix technology was developed together with the prestigious Stuttgart University. It is an advanced technology for more consistent and faster blending. The unique ProMix blending technology of Philips hand blenders uses a triangular shape to create an optimal flow and gives maximum performance making silky smooth soups and smoothies.

Powerful 800 Watt motor

The Philips handblender with powerful and reliable motor of 800 Watt can blend almost any ingredient and delivers smooth results. With this motor power this hand blender can drive also a large variety of accessoires.

SpeedTouch with Turbo function

This Philips hand blender has the SpeedTouch with variable settings and a turbo function in one button. Control with your finger tips in an intuitive way the handblender: the more you squeeze the more power. It helps you to start slowly without splashing and smoothly speed-up till you reach your preferred speed setting. With variable speed settings and a turbo function you have a full spectrum of speeds available for any type of ingredient, creating the

preferred consistency or smoothest blending results.

Anti-splash blade guard

The special wave shape in the bottom part of the handblender blending bar guarantees no splashes or mess while you blend.

Ergonomic rubber grip

This Philips hand blender has an ergonomic soft touch handgrip that is designed to give a secure and safe grip which helps to maneuver the hand blender during use.

Beaker 1200ml

A beaker 1200ml for blending, whisking, mixing is included with the handblender. The beaker for the handblender comes with a handy spout, handle and measures.

XL Chopper accessory

With the XL chopper accessory (1000ml) for a Philips hand blender you can chop large quantities of meat, herbs, nuts, cheese, chocolate and onions in seconds.

Whisk accessory

Single whisk accessory for Philips hand blender for whipping cream, mayonnaise, pan cake batter and more. Makes your hand blender multifunctional and versatile.

Single release button

The Philips handblender has a single release button that makes it simple and easy to attach and detach the blending bar or other hand blender accessories. Easy to operate with one finger.
